Passionate Software Developer specializing in the MERN stack. Experienced in building responsive web applications using MongoDB, Express.js, React.js, and Node.js. Strong understanding of REST APIs, authentication, database design, and modern frontend development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Redux, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code, npm

Other: Responsive Design, API Integration, Authentication, CRUD

EXPERIENCE

Software Developer

Sample Technology Company | 2024 - Present

- Developed responsive web applications using React.js and modern JavaScript.
- Built REST APIs using Node.js and Express.js for frontend integration.
- Designed MongoDB schemas using Mongoose and implemented CRUD operations.
- Implemented JWT-based authentication and role-based authorization.

PROJECTS

1. E-Commerce MERN Application

Full-stack e-commerce platform built using MongoDB, Express.js, React.js, and Node.js.

- User registration and JWT authentication.
- Product listing, search, filtering, and categories.
- Shopping cart and order management.
- Admin dashboard for products and orders.

2. Task Management System

A collaborative task management application for creating, assigning, and tracking tasks.

- React-based dashboard with responsive UI.
- Node.js and Express REST APIs.
- MongoDB database for users, tasks, and projects.
- JWT authentication and protected routes.

3. Developer Portfolio

Personal portfolio website showcasing projects, skills, and professional experience.

- Built with React.js and Tailwind CSS.
- Integrated contact form with backend API.
- Responsive design for desktop and mobile devices.
- Project showcase with GitHub links.

EDUCATION

Bachelor's Degree in Computer Science

Sample University | 2021 - 2025
